DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-17, and 19-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:

U. S. Patent No. 3,667,034 to Freeze in view of U. S. Patent No. 5,938,424 to Kurogi et al. are references closest to the claimed invention. Freeze in combination with Kurogi et al. disclose A method for transformer testing, comprising: receiving a failing test result of a transformer, the test result being determined from a test taken during transformer manufacture; determining, via a knowledge-based system, a predicted root cause of the failure based on the test result and a knowledge base of transformer information; and determining, via the knowledge-based system, a suggested course of action for the failure based on the test result and the knowledge base of transformer information. However, Freeze in combination with Kurogi et al. do not teach the knowledge base of transformer information comprising a transformer rule; determining the predicted root cause comprising determining the predicted root cause based on the test result, the knowledge base of transformer information, and the transformer rule; and determining the suggested course of action comprising determining the suggested course of action based on the test result, the knowledge base of transformer information, and the transformer rule.; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
